

MOHAMED HIFZALLA

Strategy Consultant | Certified KPI Professional (CKPIP) | Riyadh, KSA | Arabic & English
+966 569 451 661 · mohamedhabbass@outlook.com · Riyadh, Saudi Arabia · Arabic (Native) | English (Fluent)

PROFESSIONAL SUMMARY

Strategy consultant and Certified KPI Professional (CKPIP) with 5+ years of cross-industry experience delivering strategic analysis, business process improvement and operational redesign. Proven ability to assess current-state performance, structure analytical problem-solving, design practical solutions, and support implementation through to measurable results. Experienced in basics of financial modeling, market research, KPI framework design, executive reporting, and stakeholder engagement — with an entrepreneurial track record that bridges strategic thinking and hands-on execution. Riyadh-based, Arabic-native, with deep familiarity with the Saudi business environment and Vision 2030 reform landscape. Trained in consulting methodology through BCG and PwC simulations; actively pursuing CSP and COKRP certifications.

CERTIFICATIONS & CONSULTING TRAINING

Certified KPI Professional (CKPIP) ✓ | KPI Mega Library | Completed August 2026 | Credential ID: TLZZKGSDKGH-
XPHWHWPRX-RLRLLKDRR

KPI framework architecture, performance measure definition, cascading methodology, target-setting, and monitoring — enabling structured, evidence-based performance management across client engagements.

PwC US Management Consulting Job Simulation ✓ | The Forage / PwC US | Completed August 2026

Business transaction diligence, financial modeling with editable assumptions and scenario fields, three-slide synergy presentation development, and executive email communication — full consulting engagement workflow.

BMC · Balance Scorecard Development

PROFESSIONAL EXPERIENCE

Business Development & Strategy Lead | **Canopus** | Port Sudan, Sudan (Remote) 2024 – Present

Multi-industry company engaged in agricultural development and commodity trading in East Africa through strategic partnerships.

- Delivered a full strategy-to-execution engagement for an agricultural venture — conducting market research and demand analysis across four regions, designing the operating model, developing a KPI performance framework, and supporting implementation through to operational launch.
- Built comprehensive financial models and scenario analyses — developing multi-variable P&L projections, cost structures, revenue models, and capital deployment scenarios to inform strategic investment decisions and institutional funding applications.
- Developed a complete business case for institutional investors, integrating market analysis, financial projections, impact assessment, and strategic recommendations into a structured submission to the Africa Enterprise Challenge Fund (AECF).
- Designed and implemented organizational operating model — defining roles, responsibilities, and operational policies aligned with both near-term requirements and long-term strategic objectives.
- Conducted stakeholder interviews and facilitation sessions with cross-functional partners — synthesizing perspectives into strategic insights and building alignment around key decisions and implementation priorities.

Business Analyst | **MJ for Logistics** | Riyadh, Saudi Arabia Feb 2024 – May 2024

A logistics company specializing in B2B and B2C delivery services across KSA.

- Assessed operational performance across multiple client accounts through structured data analysis — identifying root causes of inefficiencies and developing prioritized improvement recommendations with projected business impact.
- Built Power BI dashboards and structured management reports — providing senior leadership with real-time KPI visibility and the analytical foundation needed for data-driven decisions across a fast-moving operational environment.
- Collaborated cross-functionally with operations and account teams to coordinate process improvement implementation — tracking progress against milestones and reporting outcomes to senior stakeholders.

Founder & Strategy & Operations Lead | **Canopus** | Khartoum, Sudan Jul 2021 – Jan 2024

Multi-industry company engaged in agricultural projects and domestic commodity trading.

- Functioned as strategy and operations lead across six concurrent business ventures — conducting current-state assessments, facilitating stakeholder workshops, designing solutions, and overseeing implementation through to measurable impact on financial and operational performance.
- Developed and refined business models, financial plans, and operating frameworks across agricultural and commodity trading verticals — translating strategy into executable plans with clear milestones, accountability structures, and performance metrics.
- Built and managed a multi-stakeholder partner ecosystem across suppliers, distributors, farming communities, and institutional funders — coordinating relationships, aligning incentives, and maintaining strategic coherence across a complex network.
- Supported business development by preparing proposals, pitches, and strategic recommendations for external partners — contributing to thought leadership outputs and investment positioning materials.

Business Analyst | **Al Riad Al Khadra** | Khartoum, Sudan Jul 2019 – Jun 2021

Agricultural company cultivating wheat, corn, and cotton through a partnership model with local farmers.

- Conducted end-to-end process improvement engagements across procurement and supply chain operations — diagnosing inefficiencies, designing improved workflows, managing implementation, and tracking outcomes against baseline KPIs: 20% efficiency gain and 25% logistics cost reduction.
- Gathered and documented business requirements for six concurrent projects — coordinating stakeholder inputs across operations, finance, and procurement to produce clear, validated requirements that informed solution design.
- Developed a performance management reporting system — defining KPIs, designing report templates, and producing structured monthly and quarterly performance reports for senior leadership decision-making.
