Civil Engineer | Site Engineer | Quantity Surveyor | ISO 9001 Lead Auditor

Professional Summary

Civil Engineer with a BSc (Honors) in Civil Engineering and over 4 years of experience across construction supervision, site engineering, and commercial engineering in consulting and contracting environments. Hands-on experience reviewing shop drawings and technical specifications, scheduling and supervising on-site construction activities, and verifying material and testing compliance against contractual and quality requirements. Skilled in quantity take-off, bill of quantities (BOQ) preparation, and cost estimation, supported by ISO 9001:2015 Lead Auditor certification and a strong record of delivering projects within scope, timeline, budget, and quality standards.

Certifications

- ISO 9001:2015 Quality Management System Lead Auditor – INFINITY CERT International (2025)
- PMP Certification Exam Preparation – TIA Education (2025)

Education

Bachelor of Science (Honors) in Civil Engineering

University of Science and Technology, Sudan | 2016 – 2022

Professional Experience

Commercial Engineer – Freyssinet Saudi Arabia | Riyadh, Saudi Arabia

February 2026 – Present

- Analyzed engineering drawings and technical specifications to extract dimensions and quantities, supporting procurement and material planning processes
- Performed detailed quantity take-off calculations and bill of quantities analysis, ensuring accurate cost estimation and project budgeting
- Collaborated with project teams to validate quantity calculations and maintain accuracy throughout project phases, minimizing discrepancies and cost overruns

Site Engineer – Murtada Maaz Consultancy | Khartoum, Sudan

May 2022 – October 2022

- Coordinated and scheduled on-site construction activities to maintain workflow continuity and adherence to project plans
- Reviewed contractor shop drawings for technical accuracy and contract compliance prior to submission for final engineering approval
- Served as the initial reviewer for contractor submittals, measurement requests, and technical documentation
- Assessed contractor requests for materials and resources to ensure alignment with project phases and approved scopes
- Reviewed material and sample testing results to confirm compliance with contractual and quality requirements

Project Coordinator & Associate Consultant – Management Solutions Management Systems Solutions Company | Riyadh, Saudi Arabia

July 2024 – January 2026

- Coordinated planning, scheduling, and execution of two consulting projects, contributing to improved delivery timelines and milestone adherence
- Supported four consulting engagements by assisting in management system implementation and business process analysis
- Monitored project progress against approved scope, timelines, and quality standards, supporting informed decision-making
- Authored and managed the end-to-end proposal development lifecycle for competitive consulting tenders

Project Coordinator – NHC Sudan | Khartoum, Sudan

November 2022 – June 2024

- Coordinated communication and documentation flow between site teams and the consulting body to ensure timely review of critical requests
- Reviewed and verified material supply requests to ensure accuracy, specification compliance, and avoidance of order discrepancies
- Conducted detailed reconciliations between completed work and reported progress to ensure contractual and quality compliance
- Prepared weekly and monthly progress reports, improving communication and alignment between project teams and stakeholders
- Managed the acquisition and renewal of work permits, mitigating compliance risks and preventing work interruptions

Technical Skills

- **Engineering Software:** ETABS, SAFE
- **Drafting Tools:** AutoCAD, AutoCAD Structural Detailing
- **Project & Office Tools:** MS Project, Excel, Word, PowerPoint

Core Competencies

- Construction Supervision & Site Coordination
- Shop Drawing & Submittal Review
- Quantity Take-off & BOQ Preparation
- Quality & Compliance Management
- Reporting & Documentation Management
- Risk Identification and Mitigation

Languages

- Arabic – Native
- English – Professional working proficiency
